

A Division of Ryan Development Company L.C.

Limited 10 Year Warranty

Agriboard Engineered Structural Insulated Panels (SIP)

What Is Covered?

Agriboard panels, when installed in accordance with approved architectural designs and applications, and erected under the procedures specified in the Construction Manual, are warranted against structural defects, delamination or structural failure for a period of ten (10) years from the date of the original purchase.

Definition of Defects or Failures.

Defects or failures are defined as extensive separation of the engineered panels or OSB components within the panels, which result in a significant reduction of structural capacity. Minor localized edge cracking or loose surface strands do not constitute a defect or failure. This warranty does not cover damage due to:

- Standing water, fire, floods, or natural disaster.
- Moisture from improper installation or construction.
- Foundation or building movement.
- Unauthorized penetrations in the panel.
- Damage to the panel prior to installation.
- Negligence or misuse.
- Explosions, terrorist attacks or sacrificial damage

Note:

Agriboard SIPs are treated with borate to resist internal fungal decay, mold and many harmful insects such as termites, borers and carpenter ants. However, like any wood or natural product, damage due to these factors may still occur, particularly when exposed to repeated wetting or high moisture environments or if not properly ventilated. For this reason, design and use features and appropriate finish coverings must ensure that Agriboard is protected from such exposure. This warranty does not cover damage due to fungal decay, mold or insects.

What Agriboard Will Do.

Agriboard will provide replacement materials and pay for the reasonable cost of repairing or replacing defective panels within one (1) year of the original purchase. During years two through ten (2-10), the warranty is limited to materials only. Agriboard will offer the original purchaser replacements for the defective panels or a refund of the original panel purchase price.

What You Must Do.

You must notify Agriboard Industries in writing of any claim within thirty (30) days after discovery of the structural defect, delamination or structural failure. For claim approval, an Agriboard representative must be given the opportunity to inspect the damage prior to any alteration, change or repair.

Incidental or Consequential Damages.

Agriboard's sole responsibility for product defects is set forth in this warranty. Agriboard will not be responsible for incidental, indirect or consequential damages. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

State Law Rights.

This warranty gives you specific legal rights. You may also have other rights which vary from state to state.
